Chief Secretary
Jharkhand, Ranchi

D.O. NO. 26 /CS
Date: 25.03.2020

Dear Sir,

I am writing this to solicit your urgent intervention to sort out a critical issue related to COVID-19 management. The BLEACHING POWDER stock in the state of Odisha is on the verge of exhaustion. The chief manufacturing company, OSMCL has placed supply order of raw material to the Grasim Chemicals having their factory units at Renukoot, Uttar Pradesh and at Rehala, Jharkhand. These two factory units are locked down in the wake of COVID-19.

Your kind intervention is requested for ensuring opening of and functioning of these respective factory units in your states to manufacture bleaching powder which is extremely essential in COVID-19 management. Further, unrestricted movement of the bleaching powder from the factories to other states also may kindly be ensured.

A positive line of confirmation is requested.

Regards,

Yours sincerely,

Asit Tripathy
(Asit Tripathy)
